Dear Edward

We would like to thank you for your excellent work on the development of our website, we have received a lot of good feed back from our supplies and work providers and it has already provided us with new inquiries for vehicle repairs

We would highly recommend ee-web to anyone wanting a new website design as we felt you dealt with our requirements with professionalism, courtesy, speed and reliability, you were recommended to ourselves by a family member and we are very pleased that we listened to them rather than just pick someone from the Internet

Thank you for your continued help and support

Regards
