Our work with EE Web Design aimed to create a new website that is easier to navigate and help our customers to find relevant information on our services quickly.

We are thrilled with the end result and have had positive feedback from many clients that they are able to find exactly what they need.

Working with Edward was an enjoyable experience and he always shows a great level of professionalism whilst explaining every step in easy to understand terms.

I am particularly pleased that Edward has created a site that we are able to update ourselves and I look forward to an ongoing contract with EE Web Design in order to get going with the SEO.

I know that my company's online presence is in very safe hands.

I would happily and wholeheartedly recommend EE Web Design to anyone wishing to create a website that works with your brand to show off the company at its best.

Kevin Michael
Director, Eviction Aid Ltd
