Testimonial:

Edward Eldon – EE Web Design

Edward Eldon has worked with us for around 4 years now. We originally were looking for a someone to both design and maintain our websites ... it was very important to us to find a contact that was very established and would be around for us as and when we needed them, being familiar with both our needs and our sites.

He has proved invaluable. He is easy to contact, his service provides excellent value for money with each and every quote being a fair price. We did have relatively old websites and issues can be very hard to solve, thankfully Edward is a man who does not like to be beaten by a problem, and has to this date has always solved any issues – possibly through blood sweat and tears but to us always with a willing smile!

A very nice, honourable, dynamic gentleman – I would advise that if you make a contact like this – you don't let them go!

We will be upgrading our websites soon and it will be a pleasure to once again work with EE Web Design, we very much look forward to seeing his designs. It is important that we keep up with the times and his advise will keep us in line and even ahead of our competitors.

Victoria L. M Bradbeer
Director
