

lyndon osborn garden and plant skills

Leahurst Nurseries / Treeferns.com

Many thanks to ee-web design. As a bespoke plant nursery and landscaping business we had been contemplating building a web site for a number of years. Edward from ee-web design talked us through our options, helped us to develop the structure and look of our website, and has patiently helped us to start the process of working with our new website. The resulting site is a major step forward for the business as it finally has an effective online presence. We are looking forward to developing this productive partnership in 2015 and the years to come.
